VAN MAHOTSAV WEEK CELEBRATION

Several environmental hazards are caused due to deforestation and depletion of trees. Planting trees helps in reducing pollution, preventing global warming & promoting rainfall. Hence, Van Mahotsav week is celebrated at the onset of monsoon season to promote environmental awareness.

CVM Homoeopathic Medical College & Hospital already have its hand in green revolution as it is having a separate herbal garden and also a wide variety of plants & trees around the college campus. As an active participation in van mahotsav week, saplings of trees were planted by the Principal and faculties of the college. Also, all staff members have given their helping hand in watering and nurturing of plants throughout the week.
